NOTICE OF ALLOWANCE

Response to Arguments

1. Applicant's arguments filed 13 August 2009, with respect to the rejection of claims 1-20 and 40 under 35 U.S.C. 102(f) and claims 1 and 12-16 as provisionally rejected on the grounds of obviousness-type double patenting have been fully considered and are persuasive. The rejections of the claims have been withdrawn.

Allowable Subject Matter

2. Claims 3-20, 40, and 41 are allowed.

3. The following is an examiner's statement of reasons for allowance: It is the examiner's opinion that the art of record considered as a whole, alone or in combination, neither anticipates nor renders obvious, inter alia, a diverter mounted in the working air conduit...and coupled to the handle *such that **movement of the handle moves the diverter*** between the dry suction position and the wet suction position (Claim 40); or, a diverter mounted in the working air conduit...and an actuator mounted to the handle and connected to the diverter to move the diverter between the dry suction position and the wet suction position and including a connector between the handle and the diverter *so that **the diverter moves** between the dry suction position and the wet suction position **as the handle rotates*** between a dry suction position and a wet suction position, together in combination with the rest of the limitations in the independent claims [*emphasis added*].

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
